UPGRADE TO ULTRA

INNOVATIVE. HEALTHY. NUTRITIOUS. DURABLE.

Wet Grinders

The patented conical stones of Ultra wet grinders not only grind effectively for smooth batter, but also generate less heat while grinding, resulting in higher fermentation rise. This not only means soft and fluffy idlis, but more numbers of them too. The drum is made with rust-resistant AISI 304 food grade stainless steel to ensure that the batter is not contaminated and the idlis are healthy. Ultra wet grinders give you great idlis, not worries, as they come with a long warranty

WET GRINDER

Perfectly
made

Makes Better Batter Faster

The new Ultra fastgrind wet grinder: Designed with improved conical stones for better grinding, unique counter rotating mechanism for faster grinding and a compact shape that saves 33% space. Now there's more than one good reason to upgrade.

- 2L Capacity • 150W Motor • Digital timer • AISI 304 rust-resistant food grade stainless steel drum
- Separate grinding mode for coconut chutney and wet masalas • Compact design that occupies 33% less space
- Additional wiper on the lid • Lighter stone assembly

Wet Grinder Accessories

Coconut Scraper

Atta Kneader

Coconut scraper and atta kneader have to be purchased separately at additional cost.

1st and only wet grinder with counter rotating conical stones

Both the drum and stone assembly rotate in opposite directions and hence reduces batter grinding time.

1st and only wet grinder with separate modes for coconut chutney and wet masalas

2-way counter rotating conical stones for effective grinding of tougher ingredients like grated coconut and masalas.

Lower batter temperature

The slower rotation of the drum coupled with the counter rotating conical stones result in even lower batter temperature.

Patented conical stones

Patented conical stones generate less heat while grinding, ensuring low batter temperature. This results in higher fermentation rise making for softer and fluffier idlis and more numbers of them too. The good bacteria thrive in the batter and hence our idlis pack extra nutrition. Batter stays fresh for upto 5 days and so you can have fresh idlis and dosa everyday.

Digital timer

Beep alert & auto switch-off at preset grinding time.

AISI 304 food grade stainless steel drum

Only healthy ingredients should go into making your idlis. Ultra grinders come equipped with AISI 304 food grade stainless steel drums. These drums are rust-resistant and non-contaminating, hence the idlis are healthy.

ABS body

The ABS body lasts longer and is also aesthetically good looking. It is lighter and hence easy to move or carry.

Powerful motor

The robust and powerful motor design in Ultra wet grinders makes it possible to handle full loads without affecting peak performance.

Multi-utility drum

The unique design of Ultra wet grinders makes it possible to store the batter in the same drum after grinding. This eliminates the need for a separate storage container and saves time and effort.

—INTRODUCING—

diet steamer

Perfectly
made

Enjoy nutrient-rich, healthy food
cooked in a stainless steel steamer.

*For Idli, Kozhukattai, Idiyappam, Uthiri Puttu,
Vegetables, Dhokla, Momos and more*

Steaming is the only cooking method that does not disturb the molecular structure of food, which plays an important role in retaining minerals and vitamins. Additionally, it also preserves the original shape, colour and freshness of the cooked food. What's more, the Ultra Diet Steamer is made of AISI 304 food grade stainless steel metal that does not leach into food, thereby preventing contamination. Thus, making it a healthy choice for all
